

CONFIDENTIAL PROGRAM PROPOSAL

TECHhelp4U

Campus Ambassador Program 2026

Building India's Largest Student Technology Leadership Ecosystem

Version 2.0 | Strategic Proposal Document

Prepared By	Gautam Kumar Maurya — Event Management & Social Media Intern, TECHhelp4U
Prepared For	Founders, Core Team, College Partners, Sponsors & Strategic Investors
Document Type	Campus Ambassador Program — Strategic Proposal & Execution Playbook
Program Duration	6 Months (Pilot Phase) 5-Year Expansion Roadmap
Initial Scope	50 Colleges 100 Ambassadors 100+ Events 10,000+ Students
Date	July 2026
Classification	Confidential — Internal & Partner Distribution Only

This document is confidential and intended solely for the recipient. Reproduction or distribution without written consent of TECHhelp4U is prohibited.

1. Founder's Message

Every large movement begins with a small, stubborn belief. Ours is simple: talent in India's colleges is not the constraint — access, mentorship, and consistent opportunity are. TECHhelp4U was built to close that gap, one campus at a time, and the Campus Ambassador Program is the mechanism through which that belief becomes a distributed, self-sustaining network of student leaders.

Over the past cycles of workshops, webinars, and community drives, we have consistently observed the same pattern: motivated students exist on every campus, but they lack a structured platform to convert that motivation into leadership experience, a professional network, and a portfolio of real accomplishments. This program exists to solve exactly that problem — deliberately, measurably, and at scale.

This is not a one-time recruitment drive. It is the foundation of a leadership pipeline that will, over the next five years, produce state coordinators, chapter heads, and eventually TECHhelp4U's own core team members. Ambassadors who join in 2026 will be the seniors who train the ambassadors of 2029.

To our Core Team, partner colleges, sponsors, and future ambassadors: this document is both a blueprint and a commitment. It sets out exactly how we will select, train, support, and reward the people who will carry the TECHhelp4U name into fifty campuses this year — and hundreds more in the years ahead.

Commitment

TECHhelp4U commits to transparent selection, measurable KPIs, real rewards, and genuine career outcomes for every ambassador who meets programme standards — no vanity metrics, no unpaid busywork without value exchange.

2. Executive Summary

The TECHhelp4U Campus Ambassador Program (CAP) 2026 is a structured, six-month student-leadership initiative designed to build a sustainable, high-performing network of 100 ambassadors across 50 colleges in its pilot phase. The program is modeled on the operating principles of category-defining ambassador networks — Google Developer Groups, Microsoft Learn Student Ambassadors, GeeksforGeeks Campus Mantri, GirlScript Foundation, and MLH Campus Community Leaders — while being purpose-built around TECHhelp4U's own community identity, resources, and growth stage.

The program's core purpose is threefold: (1) extend TECHhelp4U's presence into colleges through trained, accountable representatives rather than paid marketing; (2) create a genuine leadership and skill-development pathway for students that produces measurable career outcomes — internships, recommendation letters, and portfolio-worthy project and event experience; and (3) build a repeatable, data-driven operating system (recruitment → training → execution → reporting → recognition) that can scale from 50 colleges to 500+ without a proportional increase in core-team overhead.

Expected impact over the six-month pilot includes 100+ campus-level events, direct engagement with 10,000+ students, 5,000+ new community registrations, and the identification of 15–20 high-performing ambassadors ready for Regional Lead or Core Team roles at the end of the cycle. Beyond the pilot, this document lays out a five-year expansion vision culminating in a pan-India chapter network, an annual flagship conference, and a self-funding sponsorship engine.

This proposal is intended to function as an execution playbook, not a concept note. Every section includes the operating detail — rubrics, SOPs, budgets, templates, and timelines — required for the TECHhelp4U Core Team to run the program directly from this document without additional planning cycles.

Metric	Pilot Target (6 Months)	Year 1 Target
Partner Colleges	50	100
Ambassadors Onboarded	100	220
Events Executed	100+	250+
Students Reached	10,000	35,000
New Community Registrations	5,000	15,000
Sponsor Partnerships	5–8	20
Ambassador Retention Rate	≥ 80%	≥ 85%

3. About TECHhelp4U

Community Story

TECHhelp4U began as a small peer-to-peer help network among engineering students who were tired of learning in isolation — sharing resources, solving doubts, and running informal study sessions over WhatsApp and Discord. What started as an informal support group grew, event by event, into a community organizing structured workshops, webinars, and awareness sessions across cybersecurity, development, and career-readiness topics.

Mission

To make high-quality technical learning, mentorship, and opportunity accessible to every student, regardless of which college they attend or what resources that college provides.

Vision

To become one of India's most trusted and active student-led technology communities — a name students recognize as a reliable source of skills, opportunities, and honest mentorship.

Core Values

- Accessibility — no paywalls on foundational learning.
- Authenticity — real mentors, real case studies, no inflated claims.
- Consistency — a predictable cadence of value, not one-off hype events.
- Merit-based growth — recognition tied to contribution, not seniority alone.
- Community-first decision-making — programs are shaped by student feedback loops.

Achievements To Date

- Delivered structured cybersecurity and technical internship-style programs with measurable participant outcomes and industry recognition, including award-based engagement formats.
- Built a content and social-media presence used to document and publicize community programs, expanding organic reach without paid promotion.
- Established relationships with subject-matter mentors across OSINT, malware analysis, SOC operations, mobile and blockchain forensics, and compliance domains.

Community Structure Today

TECHhelp4U currently operates through a compact core team covering content, event management, social media, and technical mentorship functions. The Campus Ambassador Program is the first structured layer designed to extend this core team's reach beyond what a small internal team can manage directly.

Unique Selling Points

- Practical-first curriculum: every session maps to a tool, a workflow, or a deliverable — not just theory.

- Recognition that converts to real outcomes: award frameworks tied to internships and recommendation letters, not just certificates.
- Founder-level accessibility: ambassadors interact directly with community leadership, not a distant brand office.
- Built for scale from day one: every process in this document is designed to work identically at 50 colleges and at 500.

4. Why a Campus Ambassador Program

The Problem

Student communities that rely solely on a central team hit a growth ceiling quickly. A core team of five to ten people cannot personally run events, manage local relationships, and sustain content output across even fifty campuses — let alone five hundred. Meanwhile, paid marketing is expensive, poorly targeted for a niche technical audience, and does nothing to build local trust or long-term community ownership.

Challenge	Why It Matters	How CAP Solves It
Limited direct reach	Core team cannot be physically present on 50+ campuses	Trained local representatives extend presence organically
Inconsistent student engagement	Engagement varies wildly by college culture and existing student bodies	Localized ambassadors tailor outreach to their own campus context
High marketing cost	Paid campus marketing is expensive and low-trust	Peer-led promotion is higher-trust and near-zero marginal cost
Event logistics bottleneck	Centrally-run events don't scale beyond a handful of campuses	Local coordinators handle logistics; core team provides SOPs and content
No leadership pipeline	Community currently has no structured path from member to leader	CAP creates a formal, merit-based progression ladder

The Opportunity

India's student population represents one of the largest, most digitally-native technical talent pools globally, yet most students outside top-tier institutions have limited structured access to mentorship, tools, and hiring pipelines. A well-run ambassador program lets TECHhelp4U become the default point of access for that talent pool — while also becoming an attractive, cost-efficient channel for sponsors seeking authentic access to students, and for colleges seeking active, well-organized student communities without hiring additional staff.

Why Now

- TECHhelp4U has a proven content and mentorship engine but an unscaled distribution layer.
- Competing ambassador programs (GDG, MLSA, Campus Mantri) prove strong demand exists for structured student-leadership opportunities.
- A six-month pilot at 50 colleges is small enough to run with tight quality control, and large enough to generate credible national-scale proof points for sponsors and partners.

5. Program Vision

The Campus Ambassador Program is not conceived as a marketing tactic — it is conceived as TECHhelp4U's core leadership-development engine. Within five years, the program's alumni network should be able to staff TECHhelp4U's own core team, regional operations, and even spin out independent, TECHhelp4U-affiliated student chapters with formal college recognition.

Five-Year Vision Statement

By 2031, TECHhelp4U's Campus Ambassador Program will operate as a self-sustaining, pan-India student leadership network spanning 1,000+ colleges, governed by a multi-tier structure of student leaders who were themselves trained inside the program, supported by an annual flagship conference, a mature sponsor ecosystem, and a track record of verified career outcomes for thousands of alumni.

Horizon	Scale	Defining Milestone
Year 1 (Pilot + Consolidation)	50 → 100 colleges	Program SOPs validated; first Regional Leads promoted internally
Year 2	250 colleges	First TECHhelp4U flagship annual conference
Year 3	500 colleges	State-level chapter governance introduced
Year 4	750 colleges	Formal alumni placement & referral network launched
Year 5	1,000+ colleges	Pan-India presence with self-funding sponsorship model

6. Program Objectives

Short-Term Objectives (Months 1–2: Launch)

- Recruit and onboard 100 ambassadors across 50 target colleges.
- Complete baseline training (Weeks 1–4 of curriculum) for 100% of onboarded ambassadors.
- Publish all brand, reporting, and SOP assets to the ambassador Notion workspace.

Medium-Term Objectives (Months 3–4: Execution)

- Execute 50+ campus-level events (workshops, sessions, awareness drives).
- Reach 5,000 students and generate 2,500 new community registrations.
- Onboard first 3–5 sponsor partners for the Month 5 flagship hackathon.

Long-Term Objectives (Months 5–6: Scale & Recognition)

- Execute the quarterly flagship hackathon across regional hubs.
- Reach cumulative totals of 100+ events, 10,000 students, 5,000 registrations.
- Identify and promote 15–20 ambassadors into Regional Lead / Core Team pipeline roles.

SMART Goals Summary

Goal	Specific Target	Timeframe	Owner
Recruitment	100 ambassadors, 50 colleges	Month 1–2	Campus Ambassador Lead
Training completion	100% complete Weeks 1–4	By end Month 2	Training Coordinator
Event execution	100+ events	Month 1–6	Regional Leads
Reach	10,000 students	Month 1–6	College Leads / Ambassadors
Registrations	5,000 sign-ups	Month 1–6	Ambassadors
Sponsor partnerships	5–8 signed	Month 3–5	Sponsorship Consultant
Retention	≥80% at Month 6	Ongoing	Core Team

7. Organizational Structure

The program uses a seven-tier reporting structure designed to keep the span of control manageable at every level — no single lead manages more than 8–10 direct reports, which keeps mentorship and quality control realistic as the network scales.

Founder
Core Team (Program, Content, Sponsorship, Design)
Campus Ambassador Lead (National)
Regional Leads (North / South / East / West / Central)
State Leads
College Leads (1 per partner college)
Campus Ambassadors (Gold / Silver / Volunteer)

Roles & Reporting Table

Role	Reports To	Manages	Typical Span
Campus Ambassador Lead	Founder / Core Team	Regional Leads	5 Regional Leads
Regional Lead	CA Lead	State Leads	4–6 State Leads
State Lead	Regional Lead	College Leads	6–10 College Leads
College Lead	State Lead	Campus Ambassadors at that college	1–2 Ambassadors
Campus Ambassador	College Lead	Volunteers (if any)	0–5 Volunteers

RACI Overview — Key Program Decisions

Decision / Task	Founder	Core Team	Regional Lead	College Lead	Ambassador
Program policy changes	A	R	C	I	I
Ambassador selection	I	A	R	C	-
Event approval (college-level)	I	I	A	R	C
Sponsor contract sign-off	A	R	C	I	-

Decision / Task	Founder	Core Team	Regional Lead	College Lead	Ambassador
Monthly performance review	I	A	R	R	C

R = Responsible, A = Accountable, C = Consulted, I = Informed.

8. Ambassador Categories & Role Descriptions

Ambassador Tiers

Tier	Profile	Core Expectation	Progression Path
Gold Ambassador	Senior performer, proven track record	Leads college chapter, mentors others	Eligible for College Lead / Regional Lead
Silver Ambassador	Consistent contributor	Supports and co-runs events	Eligible for Gold after 2 strong months
Volunteer Ambassador	New / early-stage	Learning phase, assists on tasks	Eligible for Silver after onboarding + 1 event

Expected Weekly Commitment

- Volunteer Ambassador: 2–3 hours/week — content support, attendance at trainings, small task execution.
- Silver Ambassador: 4–5 hours/week — co-hosting sessions, social promotion, feedback collection.
- Gold Ambassador: 6–8 hours/week — full event ownership, sponsor liaison, mentoring volunteers.

Expected Monthly Commitment

- Minimum 1 workshop or session organized or co-organized.
- Minimum 2 promotional/content pieces published under brand guidelines.
- 1 monthly report submitted through the standard reporting template.

Professional Conduct Expectations

- Represent TECHhelp4U with accurate, non-exaggerated claims in all communication.
- Respond to Core Team and College Lead communication within 48 hours.
- Escalate conflicts or blockers through the defined escalation path rather than resolving informally on public channels.

9. Recruitment & Selection Process

Recruitment follows an eight-stage funnel designed to filter for genuine commitment and capability while remaining accessible to first-year and non-metro students who may lack prior extracurricular exposure but show strong potential.

Stage	Description	Typical Duration
1. Application Form	Structured Google Form covering background, motivation, availability	Open 2 weeks
2. Resume / Profile Screening	Screened against eligibility and rubric baseline	3–5 days
3. Task Assignment	Short creative/technical task (e.g., mock LinkedIn post, mini research brief)	3 days
4. Interview	15-minute structured interview (see rubric)	1 week (rolling)
5. Selection Decision	Scored against 100-point rubric, ranked per college	2–3 days
6. Offer Letter	Digital offer letter issued via email	1 day
7. Onboarding	Kit distribution, workspace access, welcome session	1 week
8. Training & Probation	First 4 weeks are probationary; confirmed after Week 4 review	4 weeks

Eligibility Criteria

- Currently enrolled undergraduate, diploma, or postgraduate student.
- Demonstrated interest in technology, cybersecurity, or community building (projects, coursework, or personal initiative).
- Active and reasonably professional presence on LinkedIn or equivalent platform.
- Able to commit the minimum weekly hours defined for their target tier.

10. Selection Rubric — 100-Point Evaluation Matrix

Every applicant is scored on the same rubric, regardless of college, to keep selection standards consistent nationally. Interviewers must record scores against each criterion individually — holistic-only scoring is not permitted.

Criterion	Weight	Scoring Guidance
Communication	20	Clarity, structure, and confidence in written and spoken responses
Leadership Potential	20	Evidence of initiative, ownership, or prior team/organizing experience
Technical Interest	15	Depth of engagement with technology/cybersecurity beyond coursework
Social Media Activity	10	Existing presence, content quality, and engagement on professional platforms
Previous Experience	10	Clubs, fests, internships, hackathons, or community involvement
Creativity	10	Quality and originality of the assigned task submission
Availability	10	Realistic weekly time commitment matched to tier requirements
Interview Performance	5	Overall impression, coherence, and cultural fit in the live interview
Selection Threshold <i>Applicants scoring 70+ are eligible for Silver/Gold intake; 55–69 are eligible for Volunteer intake with a defined growth plan; below 55 are not selected in the current cycle but may reapply next cycle.</i>		

11. Onboarding Program

Onboarding is designed to be completed within the first seven days after an offer is accepted, so ambassadors begin contributing while their motivation is highest.

Onboarding Kit Contents

Item	Purpose
Welcome email + digital offer letter	Formal confirmation and expectation-setting
Digital ID card	Identity and credibility for campus outreach
Community handbook (PDF)	Single source of truth for policies and processes
Brand guidelines + logo kit	Consistent, on-brand content creation
Canva template pack	Fast, consistent event and social content creation
Social media caption & hashtag kit	Reduces content-creation friction
Discord + WhatsApp community access	Peer support and rapid announcements
Notion workspace access	Central hub for SOPs, trackers, and reporting
Event calendar	Visibility into national and regional event cadence

Onboarding Timeline

Day	Activity
Day 1	Welcome email, offer letter, workspace invites sent
Day 2–3	Ambassador completes profile in Notion tracker; joins Discord/WhatsApp
Day 4	Live welcome & orientation session with Core Team
Day 5–6	Handbook + brand kit review; self-paced quiz
Day 7	Training Week 1 officially begins

12. Training Curriculum — 12-Week Roadmap

Training runs concurrently with early event execution so ambassadors apply concepts immediately rather than sitting through twelve weeks of theory before contributing.

Week	Topic	Practical Deliverable
1	Community Introduction & Program Orientation	Personal intro post published on LinkedIn
2	Branding & Visual Identity	One Canva-based event poster created
3	Social Media Strategy	7-day content calendar drafted
4	Event Management Fundamentals	Mock event plan using the Workshop SOP
5	Public Speaking & Facilitation	3-minute recorded self-introduction pitch
6	Networking & Community Building	Outreach to 5 potential participants/faculty contacts
7	Sponsorship Basics	Draft one-pager pitch for a hypothetical local sponsor
8	Leadership & Team Coordination	Lead a mock volunteer-coordination exercise
9	Project & Task Management	Set up a personal task tracker in Notion
10	Career Guidance & Resume Building	Resume review submitted for peer feedback
11	Hackathon Facilitation	Volunteer role assignment for flagship hackathon
12	Review, Assessment & Certification	Final quiz + reflective report submitted

Delivery Format

- Live sessions: 45–60 minutes, recorded and archived in Notion for absentees.
- Guest sessions in Weeks 7, 10, and 11 featuring sponsors, alumni, or industry mentors.
- Each week closes with a short self-assessment quiz (5 questions) tracked on the ambassador scorecard.

13. Ambassador Responsibilities

Daily

- Monitor Discord/WhatsApp announcements and respond to time-sensitive requests.
- Engage with TECHhelp4U's social content (like, comment, share) to boost organic reach.

Weekly

- Publish at least one piece of promotional or educational content.
- Submit a short weekly update (3 bullet points: done / blockers / next).
- Attend the weekly training session or review the recording.

Monthly

- Organize or co-organize at least one workshop, session, or awareness activity.
- Submit the Monthly Report (template in Appendix) with KPI numbers and photos.
- Participate in the monthly performance review call with the College/Regional Lead.

Quarterly

- Participate in the quarterly flagship hackathon or coding contest.
- Complete a quarterly self-assessment against the scorecard.

Event, Content & Sponsor-Support Duties

- Own end-to-end logistics for college-level events using the relevant SOP.
- Coordinate with volunteers and ensure attendance/QR check-in data is captured.
- Support sponsor-related activities at their college (booth setup, product demo scheduling, resume collection with consent).

14. Event Framework & Standard Operating Procedures

Every event type has a dedicated SOP so that quality is consistent whether it is run in Lucknow or in a small-town engineering college running its first-ever tech event.

Universal Event Checklist

Before the Event

- Confirm venue/virtual link and date at least 10 days in advance.
- Submit event proposal to College Lead for approval (min. 7 days prior).
- Publish promotional content on at least 2 channels (min. 5 days prior).
- Confirm speaker/mentor availability and share the briefing document.
- Set up registration form and QR/attendance mechanism.

During the Event

- Take attendance via QR check-in or registration sheet.
- Capture photos/video for the reporting and social media archive.
- Run a live feedback form at the close of the session.

After the Event

- Submit the Event Report within 48 hours (template in Appendix).
- Publish a recap/highlights post within 72 hours.
- Share feedback summary with College Lead and flag any issues for the next cycle.

Event-Type SOP Summary

Event Type	Typical Duration	Minimum Team	Primary Owner
Workshop	1.5–2 hours	1 Ambassador + 1 Volunteer	College Lead / Gold Ambassador
Seminar / Awareness Session	1 hour	1 Ambassador	Any Ambassador
Bootcamp	1–2 days	2 Ambassadors + 2 Volunteers	College Lead
Meetup	1–2 hours, informal	1 Ambassador	Any Ambassador
Coding Contest	2–3 hours	2 Ambassadors	Gold Ambassador
Speaker / Career Session	1 hour	1 Ambassador	Any Ambassador
Quarterly Hackathon	24–36 hours	College Lead + full chapter team	Regional Lead + College Lead

15. Performance Management System

Monthly Scorecard (100 Points)

Metric	Weight	Data Source
Events organized/co-organized	25	Event Report submissions
Content published (on-brand)	15	Social media tracker
Student reach & registrations generated	20	Registration form / referral codes
Report submission timeliness	15	Weekly/Monthly report log
Peer & volunteer coordination	10	College Lead assessment
Attendance at trainings/meetings	10	Session attendance log
Professionalism / Code of Conduct adherence	5	College Lead + Core Team review

Performance Levels & Promotion Rules

Score Range	Status	Action
85–100	Outstanding	Fast-tracked for tier promotion / leadership nomination
70–84	On Track	Continue current tier; eligible for standard promotion path
50–69	Needs Improvement	Improvement plan issued with College Lead; reviewed next month
Below 50	At Risk	Formal review; may be moved to Volunteer tier or exited from program

Review Cadence

- Weekly: async check-in via report submission — no meeting required.
- Monthly: scorecard review call with College Lead (15–20 minutes).
- Quarterly: Regional Lead review covering promotion, risk flags, and recognition nominations.

16. Rewards & Recognition System

Recognition is tiered so that meaningful effort is rewarded early, while the most significant rewards (cash, mentorship, leadership roles) are reserved for consistently high performers — keeping the system credible and non-inflationary.

Rank Band	Reward
Top 50 (all confirmed ambassadors)	Digital + physical Certificate of Completion
Top 30	Premium goodies kit (upgraded merchandise tier)
Top 20	Exclusive limited-edition merchandise
Top 10	1:1 mentorship session with a Core Team member or industry mentor
Top 5	Cash reward + Founder Recognition post
Top Performer (National)	Nomination for a National Leadership Position (Regional Lead track)

Additional Digital Benefits (All Confirmed Ambassadors)

- Resume review and LinkedIn profile optimization session.
- Mock interview practice with Core Team or partner mentors.
- Priority registration for premium workshops and sponsor sessions.
- Partner discounts on learning platforms, tools, or courses (subject to sponsor availability).

Letter of Recommendation Policy

Ambassadors become eligible for an official Letter of Recommendation after meeting all of the following: minimum three months of active participation, at least 80% task/report completion rate, zero Code of Conduct violations, and a documented positive leadership contribution verified by the College or Regional Lead.

17. Merchandise & Brand Collateral

Standard Onboarding Kit

- T-shirt
- Laptop stickers
- Badge
- Lanyard
- Certificate folder
- Digital badge (LinkedIn-ready image)

Premium / Milestone Kit (Top 30 and above)

- Hoodie
- Branded bottle
- Diary/notebook
- Premium pen
- Upgraded certificate frame design

Design Direction

All merchandise uses the primary navy-and-cyan brand palette with minimal, modern iconography rather than dense graphics — favoring a look consistent with the TECHhelp4U logo mark: clean circular badge, circuit-line motif, and a legible wordmark that photographs well for social recaps.

18. Digital Ecosystem & Technology Stack

The program is designed to run on lightweight, mostly no-code/low-code tools in the pilot phase, with a defined path to purpose-built infrastructure once scale justifies the engineering investment.

Component	Pilot-Phase Tool	Scale-Phase Upgrade Path
Central workspace	Notion (SOPs, trackers, calendar)	Custom ambassador portal
Community chat	Discord + WhatsApp	Discord (primary), WhatsApp for urgent alerts only
Application & rubric	Google Forms + Sheets	Custom applicant tracking system (ATS)
Referral tracking	Unique referral codes in Google Forms	Dedicated referral-tracking dashboard with attribution
Attendance	QR codes linking to Google Forms	In-app QR check-in with real-time dashboard
Certificates	Canva + mail-merge automation	Automated certificate generator (API-based)
Analytics	Google Sheets + Looker Studio	Central analytics dashboard (CRM-integrated)
Leaderboard	Manually updated Sheet, published monthly	Live leaderboard on ambassador portal

Data & Privacy Note

Any resume or contact data shared with sponsors is collected only with explicit ambassador/student consent, and is not shared beyond the scope disclosed at the point of collection.

19. Sponsor Proposal & Partnership Packages

Why Sponsors Should Partner With TECHhelp4U

- Direct, authentic access to a technically-engaged student audience across 50+ colleges — without the cost of running campus activations independently.
- Brand visibility woven into genuinely useful content (workshops, sessions) rather than intrusive advertising.
- A pipeline for entry-level hiring and internship sourcing, with consent-based resume access.
- Measurable reach and engagement reporting after every sponsored activity.

Sponsorship Packages

Tier	Indicative Investment	Key Deliverables
Bronze	₹15,000 – ₹30,000	Logo on event collateral; 2 social media mentions; newsletter mention
Silver	₹30,000 – ₹60,000	Bronze + 1 sponsored workshop slot; booth at 1 regional event
Gold	₹60,000 – ₹1,20,000	Silver + product demo sessions at 5 colleges; resume database access (consent-based)
Platinum	₹1,20,000 – ₹2,50,000	Gold + co-branded flagship hackathon track; dedicated hiring session
Title Sponsor	By negotiation	Full program co-branding; keynote slot at flagship hackathon; year-round visibility

Standard Sponsor Deliverables Checklist

- Brand visibility across event posters, certificates, and social content.
- Booth or virtual presence opportunities at flagship events.
- Logo placement on the ambassador digital ID card and Notion workspace (Gold+).
- Post-activity performance report with reach, attendance, and engagement metrics.

20. College Partnership Model

Approaching a New College

- Ambassador/College Lead identifies a faculty coordinator or Training & Placement Cell contact.
- Core Team shares a one-page college partnership brief outlining mutual benefits.
- A lightweight Memorandum of Understanding (MoU) is signed covering event permissions, branding use, and data handling.
- Faculty coordinator is added to a quarterly update list to maintain institutional visibility.

What Colleges Gain

- An active, well-organized student tech community without needing to hire additional staff.
- Access to TECHhelp4U's session content, mentor network, and event SOPs.
- Improved placement-readiness metrics through resume, interview, and career-guidance sessions.

Training & Placement Cell Collaboration

Where a college has an active T&P Cell, the College Lead is expected to establish a direct working relationship so that TECHhelp4U sessions complement (not compete with) existing placement preparation efforts, and so that ambassador-led hiring events can be co-promoted through official college channels.

21. Marketing & Growth Strategy

Channel Strategy

Channel	Primary Use	Cadence
LinkedIn	Professional storytelling, event recaps, ambassador spotlights	Weekly (ambassador) / Daily (core team)
Instagram	Behind-the-scenes stories, quick event highlights	2–3x/week stories, 1 reel/month per ambassador
WhatsApp/Telegram	Local announcements, registration pushes	As needed, campus-specific
Discord	Community discussion, peer support, live event chat	Ongoing
Email	Formal announcements, monthly newsletter	Monthly
Campus posters/offline	Physical visibility for on-campus events	Per event

Referral & Growth Mechanics

- Every ambassador receives a unique referral code tied to registrations and community sign-ups.
- Monthly referral leaderboard published to Discord and Notion to drive friendly competition.
- Top referrers featured in the monthly newsletter and considered for early tier promotion.

22. Reporting System

Reporting is deliberately lightweight — every template is designed to take under 10 minutes to complete — because a reporting system that is too heavy will simply not be used consistently at scale.

Report Type	Frequency	Owner	Key Fields
Weekly Update	Weekly	Ambassador	Done / Blockers / Next steps
Monthly Report	Monthly	Ambassador	Events, reach, registrations, content published
Event Report	Within 48 hrs of event	Event Owner	Attendance, feedback score, photos, learnings
Attendance Sheet	Per event	Event Owner	Name, college ID, registration source
Expense Report	Per event (if applicable)	Event Owner	Item, amount, receipt, approval status
Sponsor Report	Per sponsored activity	College/Regional Lead	Reach, engagement, deliverable confirmation

23. Communication Guidelines

Brand Voice

Clear, warm, and practical — TECHhelp4U communication avoids hype language ('game-changing', 'revolutionary') in favor of specific, verifiable statements about what a session or event will actually deliver.

Email Etiquette

- Use the standard subject-line format: [TECHhelp4U-CAP] <College Name> — <Subject>.
- Respond within 48 hours; escalate to College Lead if a decision is needed sooner.

WhatsApp/Discord Etiquette

- No promotional spam outside the designated announcement channels.
- Urgent matters go to WhatsApp; general discussion stays on Discord.
- Respectful tone at all times, even during disagreements — escalate rather than argue publicly.

Meeting Etiquette

- Join on time; if leading a call, publish an agenda 24 hours in advance.
- Every call ends with a one-line action-item summary posted to Notion.

24. SOP Library — Index

This section indexes the full set of Standard Operating Procedures maintained in the ambassador Notion workspace. Section 15 (Event Framework) contains the detailed event SOPs; the list below covers operational SOPs referenced elsewhere in this document.

SOP	Purpose	Location
Event Planning & Execution	End-to-end checklist for any event type	Section 15 + Notion
Meeting Cadence	Standard structure for weekly/monthly reviews	Notion
Social Media Posting	Brand-safe content and posting checklist	Notion + Brand Kit
Certificate Issuance	Mail-merge and verification process	Notion
Reporting	Templates and submission deadlines	Section 25 + Notion
Escalation	Step-by-step conflict/issue escalation path	Section 26 + Notion
Volunteer Management	Recruiting and coordinating event-day volunteers	Notion
Sponsor Coordination	Deliverable tracking for sponsor commitments	Section 20 + Notion

25. Risk Management

Risk	Likelihood	Impact	Mitigation
Ambassador disengagement mid-cycle	Medium	High	Monthly scorecards, early-warning flags, backup ambassador pool per college
Event under-attendance	Medium	Medium	Minimum 5-day promotion window; referral incentives; realistic reach targets
Brand misuse by an ambassador	Low	High	Brand guidelines training; Code of Conduct; escalation and removal process
Sponsor deliverable non-fulfillment	Low	High	Written deliverable checklist signed off before funds/goods are released
Budget overrun	Medium	Medium	Three-scenario budgeting (Section 27) with monthly expense tracking
Data/privacy mishandling	Low	High	Consent-based data collection only; no data sharing beyond disclosed scope
Core team bandwidth overload	High	Medium	Regional Lead layer absorbs day-to-day management load

Crisis Communication Protocol

- Any incident (safety, conduct, data) is reported immediately to the College Lead and escalated to the Core Team within 24 hours.
- A single designated spokesperson (Core Team) manages any public-facing statement — ambassadors do not respond publicly on behalf of TECHhelp4U during an active incident.

26. Budget Planning

Three budget scenarios are presented so the Core Team can plan against available sponsorship and internal funding at any point in the cycle, without needing to redesign the program itself.

Minimum Scenario (Bootstrap — No External Sponsorship)

Category	Estimated Cost (₹)
Digital certificates & basic goodies (stickers, badges)	40,000
Digital assets & template design	8,000
Event support (virtual tools, minor local costs)	50,000
Software (Notion/Canva Pro, forms tools)	15,000
Miscellaneous	12,000
Total	1,25,000

Recommended Scenario (Pilot as Designed)

Category	Estimated Cost (₹)
Goodies (₹1,500 × 100 ambassadors)	1,50,000
Certificates (design + printing)	10,000
Digital assets	15,000
Events (venue support, materials, mentor travel)	2,00,000
Marketing (campus posters, boosted content)	75,000
Software & tools	50,000
Miscellaneous / contingency	50,000
Total	5,50,000

Premium Scenario (With Full Sponsor Backing)

Category	Estimated Cost (₹)
Premium goodies & merchandise	3,00,000
Certificates & premium print collateral	25,000
Digital assets & custom portal design	1,00,000
Events incl. flagship hackathon prize pool	5,00,000

Category	Estimated Cost (₹)
Marketing (paid promotion, influencer collabs)	1,50,000
Software & custom tooling	1,50,000
Cash rewards for top performers	1,00,000
Miscellaneous / contingency	1,25,000
Total	14,50,000

Revenue Model

- Sponsorship packages (Section 20) — primary funding source at scale.
- In-kind partnerships (venue, tools, printing) to reduce cash outlay.
- Optional premium workshop fees for non-ambassador external participants, reinvested into the program.

27. Six-Month Program Timeline

Month	Phase	Key Milestones
1	Planning	Finalize SOPs, brand kit, rubric; open applications
2	Recruitment	Screen, interview, select, and onboard 100 ambassadors
3	Training	Complete Weeks 1–4 curriculum; first college events begin
4	College Events	Scale to 50+ events across colleges; sponsor outreach begins
5	Hackathon & Growth	Flagship quarterly hackathon; sponsor activations; mid-cycle scorecard review
6	Recognition & Graduation	Final scorecards, awards, LOR issuance, Regional Lead nominations

Review Checkpoints

- End of Month 2: Recruitment & onboarding completion review.
- End of Month 4: Mid-cycle performance and budget review.
- End of Month 6: Full program retrospective and Year-2 planning kickoff.

28. Success Metrics

Quantitative KPIs (Pilot Targets)

Metric	Target
Partner colleges	50
Ambassadors onboarded	100
Events executed	100+
Students reached	10,000
New registrations	5,000
Active community members retained	1,000
Sponsors / partners secured	20 (cumulative target incl. Year 1)
Ambassador retention	90%

Qualitative KPIs

- Ambassador-reported satisfaction and perceived career value (measured via exit/mid-cycle survey).
- Sponsor satisfaction with reach, professionalism, and deliverable fulfillment.
- College faculty feedback on chapter conduct and event quality.

Community Health Dashboard (Tracked Monthly)

- Engagement rate across Discord/WhatsApp channels.
- Report submission compliance rate.
- Volunteer-to-ambassador conversion rate.

29. Five-Year Expansion Vision

Phase	Colleges	Defining Feature
Phase 1 (Year 1)	50 → 100	Pilot validated; SOPs finalized; Regional Lead layer established
Phase 2 (Year 2)	250	First annual flagship conference; formal sponsor portfolio
Phase 3 (Year 3)	500	State-level chapter governance; alumni advisory circle formed
Phase 4 (Year 4)	750	Formal alumni placement & referral network
Phase 5 (Year 5)	1,000+	Pan-India presence, self-funding sponsorship engine, innovation ecosystem

At full maturity, the Campus Ambassador Program is intended to function less like a marketing arm and more like TECHhelp4U's own internal university — a structured, merit-based pathway through which any motivated student in any Indian college can build real leadership experience, a professional network, and a credible path into TECHhelp4U's own core team or into industry roles supported by the sponsor network.

30. Appendix — Sample Templates & Reference Material

A. Offer Letter (Template Outline)

- Ambassador name, college, and assigned tier (Gold/Silver/Volunteer).
- Program duration, expectations summary, and reporting line (College Lead name).
- Link to Community Handbook and Code of Conduct acknowledgment checkbox.

B. Acceptance Letter (Template Outline)

- Confirmation of role acceptance and start date.
- Acknowledgment of minimum weekly commitment and reporting obligations.

C. Monthly Report Template — Fields

Field	Description
Events organized	Count + brief description of each
Reach & registrations	Number of students reached / registered, by event
Content published	Links/screenshots of posts published under brand guidelines
Challenges faced	Free text — blockers, support needed
Next month plan	1–3 planned activities

D. Event Checklist

See Section 15 (Event Framework) — Before / During / After checklist applies to every event type.

E. Feedback Form — Standard Fields

- Session rating (1–5)
- What worked well (open text)
- What could improve (open text)
- Would you attend another session? (Yes/No)

F. Interview Rubric

See Section 11 (Selection Rubric — 100-Point Evaluation Matrix) for the complete scoring criteria used in every ambassador interview.

G. Brand Guidelines Summary

- Primary color: Deep Navy (#0B1F3A). Secondary/accent: Cyan (#16C1F2). Supporting neutral: Cool Grey.
- Typography: a modern serif (e.g., Cambria/Georgia-class) for headings, a clean sans-serif (e.g., Calibri/Inter-class) for body text.

- Logo: circular badge with circuit-line motif — always displayed on a dark or sufficiently high-contrast background; minimum clear space equal to the height of the wordmark.
- Certificate theme: navy header band, cyan accent rule, gold seal accent for top-tier recognition.
- ID card theme: vertical layout, navy background, cyan QR/ID block, ambassador photo top-third.

H. Glossary

Term	Definition
CAP	Campus Ambassador Program
College Lead	Ambassador(s) responsible for a specific college chapter
Gold/Silver/Volunteer	Ambassador performance tiers
SOP	Standard Operating Procedure
KPI	Key Performance Indicator
LOR	Letter of Recommendation
RACI	Responsible, Accountable, Consulted, Informed

I. Frequently Asked Questions

Is this a paid position?

The role is a leadership and experience-building opportunity with merchandise, certification, and merit-based cash rewards for top performers; it is not a salaried position.

Can I be an ambassador at more than one college?

No — each ambassador is assigned to exactly one college chapter to keep accountability and local ownership clear.

What happens if I cannot meet the monthly minimum?

Ambassadors are supported through an improvement plan before any status change; repeated shortfalls without communication may lead to reassignment to the Volunteer tier.

How is data I collect from students handled?

Only consent-based data is collected, and it is used solely for the purpose disclosed to the student at the point of collection.
